

# A Stainless Steal!

Duration™ air/water syringe tips offer enhanced performance at a fraction of the cost.

Duration Stainless Steel (5-year warranty)

5-year cost: **\$146.78\***

vs

5-year cost: **\$4,438.81\***

Single-Use Plastic @ 21¢ each

Finally, the economical choice is smart environmentally, too. Our new Duration Stainless Steel Air/Water Syringe Tips offer better, more consistent performance than disposable plastic – while saving you thousands of dollars! Plus, they're backed by a 5-year warranty. And unlike chrome-plated brass tips, Duration will never corrode or flake due to autoclaving. Ask your dental dealer for Duration today!

# Save Thousands of Dollars ... Enjoy Better Performance ... and Preserve the Environment? Now That's a Tip!

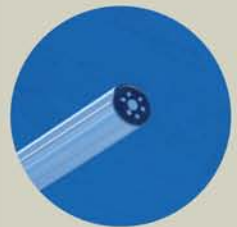

Over a 5-year period, an average practice can use and dispose of more than 21,000 plastic tips!

- Excellent spray pattern without mist or splatter.
- Save your practice thousands of dollars.
- Multiple air ports for dry air on demand.
- Medical grade stainless steel.
- Smooth rounded tip.
- Won't corrode or flake due to autoclaving.
- Backed by a 5-year warranty.

Duration stainless steel tip.

Typical disposable tip.

Compared to disposable plastic tips, Duration Stainless Steel Air/Water Syringe Tips offer improved performance, better consistency and dramatic savings ... without adding to landfills. Plus, they won't chip or corrode due to autoclaving like chrome-plated brass tips! Pass on the brass and toss your disposables. Duration ... it's a great tip for improving your practice!
