

# Patient Home Care Oral Health Products

## It All Starts with the Patient and Their Dentist!

Dentistry - the profession of tooth care is the medical science concerned with the treatment of tooth and gingival disorders and diseases.

*Personal Dental Hygiene is the Self-Care of Teeth!*

The care people take of their teeth will pave the way toward a healthy mouth and define outward appearance.

### Prophylaxis is the Key

#### Patient Action Steps:

1. Be concerned about their dental wellness.
2. Be attentive and take action to achieve their dental goals.
3. The proper dental instruments must be used to keep their teeth in good condition.

#### The Miradent Products are recommended to achieve Professional Prophylaxis.

#### Use them for a good dental life.
