

## MiraTray® Implant Advanced Implant Impression Tray with Foil Technology

No Customized  
Tray Needed!  
Eliminates Additional  
Patient Visit

- Ease of use (with patented foil technology)
- Abutments clearly visible through foil
- Superior technique - allows tray repositioning with the precision of the “pick-up” technique
- Saves time – one additional patient appointment only
- Saves money - no customized tray needed
- Clean and precise – no overflow of impression material at the abutments
- Compatible with all impression material and implant systems
- Available in three sizes each for maxilla and mandible, for dentulous and edentulous jaws

# Implantology

This novel impression tray with patented foil technology is a development of the team Professors Dr. Spiekermann and Dr. Haselhuhn (University Aachen, Germany). An implant impression tray can be created in a matter of seconds with high-precision, resulting in cost savings with no laboratory needed.

## To Place an Order

Item #	Description	
#101 250	Introductory Kit	(assorted – one of each size)
#101 251	Upper S1 (small)	Set of 6
#101 252	Upper S2 (medium)	Set of 6
#101 253	Upper S3 (large)	Set of 6
#101 254	Lower I1 (small)	Set of 6
#101 255	Lower I2 (medium)	Set of 6
#101 256	Lower I3 (large)	Set of 6
